

Kitchen Brochure 2025

www.skokitchens.com

About SKO Kitchen & Bedroom

SKO started in 2004 as a trade-only manufacturer on Carlisle St East in Sheffield. Only a year later, we opened our first retail showroom. Since then, we haven't looked back. Because we manufacture high quality, bespoke kitchen cabinets in volume, we can supply at flat-pack / DIY store prices, this is the secret of our success. Put this together with excellent customer service, amazing choice and expert designers, and you can see why more and more people choose SKO every year.

Since 2004, we haven't stopped growing. We now have a 40,000 sq ft head office & distribution centre located in Hillsborough, Sheffield, and a 15,000 sq ft factory, also in Sheffield. SKO employ over 60 people locally. We have 2 showrooms: Hillsborough Trade Point and Elland Road in Leeds. We also have an extensive trade counter at our distribution centre in Hillsborough, with over 60 kitchen and bedroom displays within our sites.

We pride ourselves on our no nonsense sales policy. We guarantee transparent pricing and good honest advice. Our design team will always give you our best price on your initial quote, with no high pressure sales tactics, or unwanted follow up calls.

When buying a kitchen from SKO, you are not only getting excellent value, amazing choice and unbeatable quality, but you are also helping to support manufacturing and local jobs in the UK.

We would like to thank you for reading our brochure, and hope you enjoy your experience as one of our valued customers.

How to place your order

Step 1 - Home survey

The easiest and most convenient starting point is to book a home survey with one of our expert design team. Our designer will measure your room and take a design brief from you, this gives you an opportunity to discuss your ideas and what you are hoping to achieve with our designer. Our designer can also offer suggestions and other options at the early stages to help you get the most out of your new kitchen. If you already have a layout you are happy with, or feel you don't need our design service, you can skip straight to the next step of our sales process.

Step 2 - Plan & design

Your designer will take your room sizes and information away and put together a design based on your needs. We then invite you to our showroom to present and finalise your design. During your showroom visit you will get the opportunity to choose layout and colour options using our extensive displays for further ideas and inspiration. Once your design is finalised its time to go to the next stage of your new kitchen journey.

Step 3 - Itemised quote

Now you have finalised your layout, colour schemes, appliance options and other accessories, its time to put your quotation together. Our designer will offer a fully itemised quote so you know the full costs involved. This is typically done during your design presentation. This gives you the opportunity to take your quote away and consider anything you haven't fully decided on prior to making any final decisions.

Step 4 - Place your order

Our order stage is also by appointment with your designer. At this stage you can make any final changes to your quote prior to us putting your new kitchen into production. Our designer will go through your chosen design and layout, ensuring you fully understand each item that makes up part of your new kitchen. Once you're happy with your chosen kitchen, our designer will arrange a delivery date for your new kitchen to be delivered to your home

Our Cabinets

“Our made to measure cabinets can be manufactured in any one of 24 colours. Where possible all our cabinets feature a solid 18mm back panel adding rigidity to the units. All our high quality German drawers and components complement our superior quality cabinets.”

18mm rear panel dowelled & machined into the cabinet. This makes our cabinets solid and keeps them square, keeping your kitchen looking brand new for much longer.

52mm Service Recess to allow for plumbing & electrics.

Hettich Arcitech drawer boxes with full extension 40KG runners. These very strong German drawers are soft close as standard, with glass sides on all pan height drawers.

Durable 1mm ABS edges colour matched to your chosen cabinet colour.

All our cabinets come complete with german HETTICH quick fit, clip on hinges, with soft close as standard.

Our BESPOKE cabinets are made to order in your choice of 30 cabinet colours. You can choose your cabinet colour to either match or contrast against your chosen door style. Cabinets can be made to non-standard configurations to suit your requirements. All our cabinets come pre assembled, with the exception of L-shape corner base units and large wardrobes, as they will not fit through doorways.

All our cabinets are supplied fully assembled, and are made using EGGER furniture board.

Our cabinets are hand made in our factory in Sheffield. All our cabinets are bespoke and made to order in your choice of 30 colours, to either match, or contrast, your chosen door style.

CABINET COLOURS

All our made to order cabinets can be manufactured using any of the 24 colours below. You can choose the colour that best matches, or contrasts against any of our door ranges.

Integro Cabinets

Our INTEGRO range are true handle less cabinets which have a handle profile built into the cabinets during the installation process. These types of kitchens are often referred to as “German Kitchens”.

The INTEGRO range of cabinets give an ultra modern and sophisticated feel to any kitchen. The handle rail system is available in 6 different finishes, brushed aluminium, brushed copper, brushed brass, graphite, white and black.

INTEGRO
Cabinets
available
in this range

✓ 2 week lead time

Piatto Plus is a slab style door manufactured using high grade laminated board, lipped using a durable ABS colour matched edging. The ashwood effect gives the look and feel of a painted wood, but is much more resistant to wear and tear than real painted wood, keeping your kitchen looking new for longer. All our Piatto doors are cut and edged in our own factory, and are available in bespoke sizes.

GLOSS

Piatto Sense is a slab style door manufactured using high grade laminated MDF board, lipped using a durable ABS colour matched edging.

The gloss or matte effect gives the look and feel of a painted door, but is more resistant to wear and tear than real painted gloss or matte doors, keeping your kitchen looking new for longer.

Vivo Gloss

INTEGRO
Cabinets
available
in this range

✓ 2 week lead time

Vivo Gloss & Matte are an MDF flat slab style door painted in the colours shown below. The paint is very similar to the type used within the automotive industry. A lacquer is applied to achieve either a gloss or matte finish.

The gloss and matte effect gives a contemporary feel to any kitchen. Because this range is painted it offers much more flexibility around matching accessories, especially curved doors and other trims.
